

New London Firefighters Burn Foundation Presents

Seminar with Lieutenant Ray McCormack

Saturday, June 11, 2016, 8 a.m. to 4 p.m.

The Effective and Efficient Engine Company

This class will cover how to locate, confine and extinguish fires in private houses, apartments and commercial occupancies, as well as hose stretches, fire attacks, leadership, size-ups, positions on the attack line, nozzle techniques, aggressive tactics, standpipe operations, hose-line choices, engine company emergencies, the impact of the UL studies, and more. Participants will gain an understanding of how to positively enhance their extinguishment culture and improve the safety of civilians and fellow firefighters by being on top of their game.

Lines and Ladders Leadership

Join **Lt. Ray McCormack** as he explores how to be an effective fireground leader no matter which apparatus right seat you occupy—even if it's just for a shift. Learn the ins-and-outs of both disciplines and the specific responsibilities that make them distinct, yet compatible.

Ray McCormack is a Lieutenant with FDNY assigned to Ladder 28 in Harlem. He served over 10 years as a Lieutenant in Engine 69. He is the co-creator of *Urban Firefighter Magazine* and is on the Editorial Board of *Fire Engineering* and *FDIC*. In addition, he delivered the keynote address at FDIC in 2009, “True Values of a Firefighter” and is the author of the long-running digital column, *Tactical Safety for Firefighters*. He is on the UL technical panel studying interior and exterior hose streams.
